**Adress:** vaktgatan 8, limhamn

**Sida skapad:** 14 januari, 2012

### Beskrivning:

A HOUSE BRINGING PEOPLE TO THE SEA  
...and the ocean to people.

Today we are destroying our seas and I think that some of it is because we (everyday citizens) have lost our contact to it. Most of us USE it for cooling in summer and harvesting for food. With this point of view we'll never see a change of perspective.

What I want is that we recreate the RELATIONSHIP to the sea we once had, but now is lost. You've got a lot of relations to different places in your life, but the one that you care the most about is home...

...so why not bring the ocean home?
